

URBANISMO PARTICIPATIVO

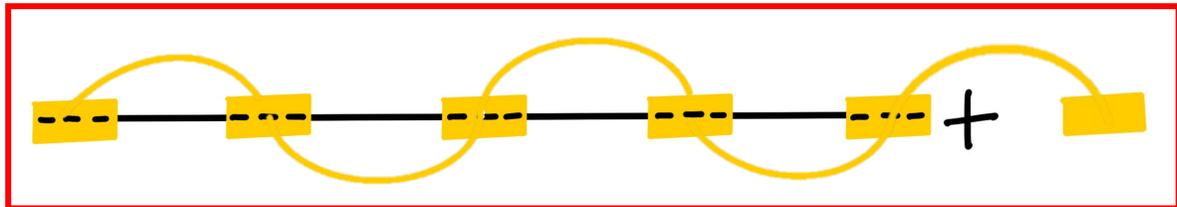

La manera de habitar el territorio está condicionada por instrumentos de ordenación, planes y proyectos que dan forma al lugar común donde nos movemos, relacionamos y convivimos. Dan forma al espacio público del que depende en buena parte nuestra salud comunitaria, física y mental.

El 'mamotreto': una obra ilegal paraliza durante años el centro urbano y los presupuestos del municipio más rico de Canarias

El ayuntamiento grancanario de Santa Brígida vuelve a plantearse alternativas 23 años después de diseñar un centro comercial en el centro de la Villa, que degeneró en un desastre urbanístico por el que ha tenido que pagar 20 millones de euros durante los últimos años

Santa Brígida quiere recuperar la parcela del 'mamotreto' para poner fin al “rumbo de decadencia de la actividad económica”

La Corporación reitera que trabaja para culminar el proceso de recuperación de la parcela y poner en marcha las actuaciones necesarias para que el casco deje de mostrar el aspecto de abandono

Veintiséis años con el mamotreto a costas

Una obra paralizada desde hace más de dos décadas y que afea el casco urbano del pueblo mantiene a los satauteños y satauteñas en vilo. Reclaman más zonas verdes y menos cimientos. Piden convertir Santa Brígida en un lugar que los jóvenes no quieran dejar para irse a la capital

Santa Brígida

El futuro de Santa Brígida, más cerca: un proyecto de cinco fases y 21 millones

* La propuesta se centra en cuatro plazas nuevas y un bulevar que sirva de conexión entre todos el casco

Presentación del nuevo diseño para la plaza de la Villa de Santa Brígida

El mamotreto de Santa Brígida dará paso a cuatro plazas con un bulevar y un jardín

El diseño elegido tras el proceso de participación ciudadana permite el uso cultural y la restauración. Un bulevar en forma de cruz conectará las plazas
